Topic:_ Defining User Story for TechnoBlog.

Abstract

Techno-Blog is a web application tailored specifically for the student body of DAIICT (Dhirubhai Ambani Institute of Information and Communication Technology). With a clear vision of fostering a robust blogging platform and community within the institute, Techno-Blog aims to empower DAIICT students to share their insights, experiences, and knowledge in the technological domain. Through this platform, students can publish blogs and contribute their perspectives, thereby enhancing collaboration and knowledge exchange within the DAIICT community. By encouraging active participation and information sharing, Techno-Blog endeavors to strengthen the collective expertise of DAIICT students and propel them towards greater success in the technological world.

Writing User Stories for the Project.

As a Part of User Story We have identified Following Actors Who will Participate in The working Model of our Web-App.

- **Listing Actors**
  - **User[Students]**
  - **Admin[Super Admin]**

User Stories of Actor 1; {Students}

☐ AS A Student I can **Login** To the Web-application With my **Registered email id** [.edu,.ac,.in].

☐ As A Student I can **Sign-Up** With The Details As Required.

☐ As A Student I can Write A **blog** By Selecting The Categories.

☐ As A Student I can **View The Blog** ON the Bases of **Category** Provided On the Web-page Without Login

☐ As A Student I can **Like** The blog and **Share** it With A link With Others

☐ As A Student My Blogs Will Only Be **Viewed** by Any OutSider.

User Stories of Actor 2; {Admin}

- ❖ As An Admin I can View The Lists of The Of The Students Who Logged in , Wrote a Blog , Viewers[Insider,Outsider]
- ❖ As An Admin I can Manage The Blogs {CRUD} As well As Manage Students{CRUD}
- ❖ As An Admin I can Manage The Categories
- ❖ As An Admin I can Manage The Content Been Posted.
  - ➢ Secure And Safe Browsing.
- ❖ As An Admin I can Scale this Web-site For All The Individual Organizations.
